3 PROFESSIONAL Q+A SALON

In our Salon, every day is Client Day.

This is our busy, active professional Hair Salon, where our students are constantly working with many clients on a wide variety of hair services. This allows our students to gain incredible experience, confidence and skills.

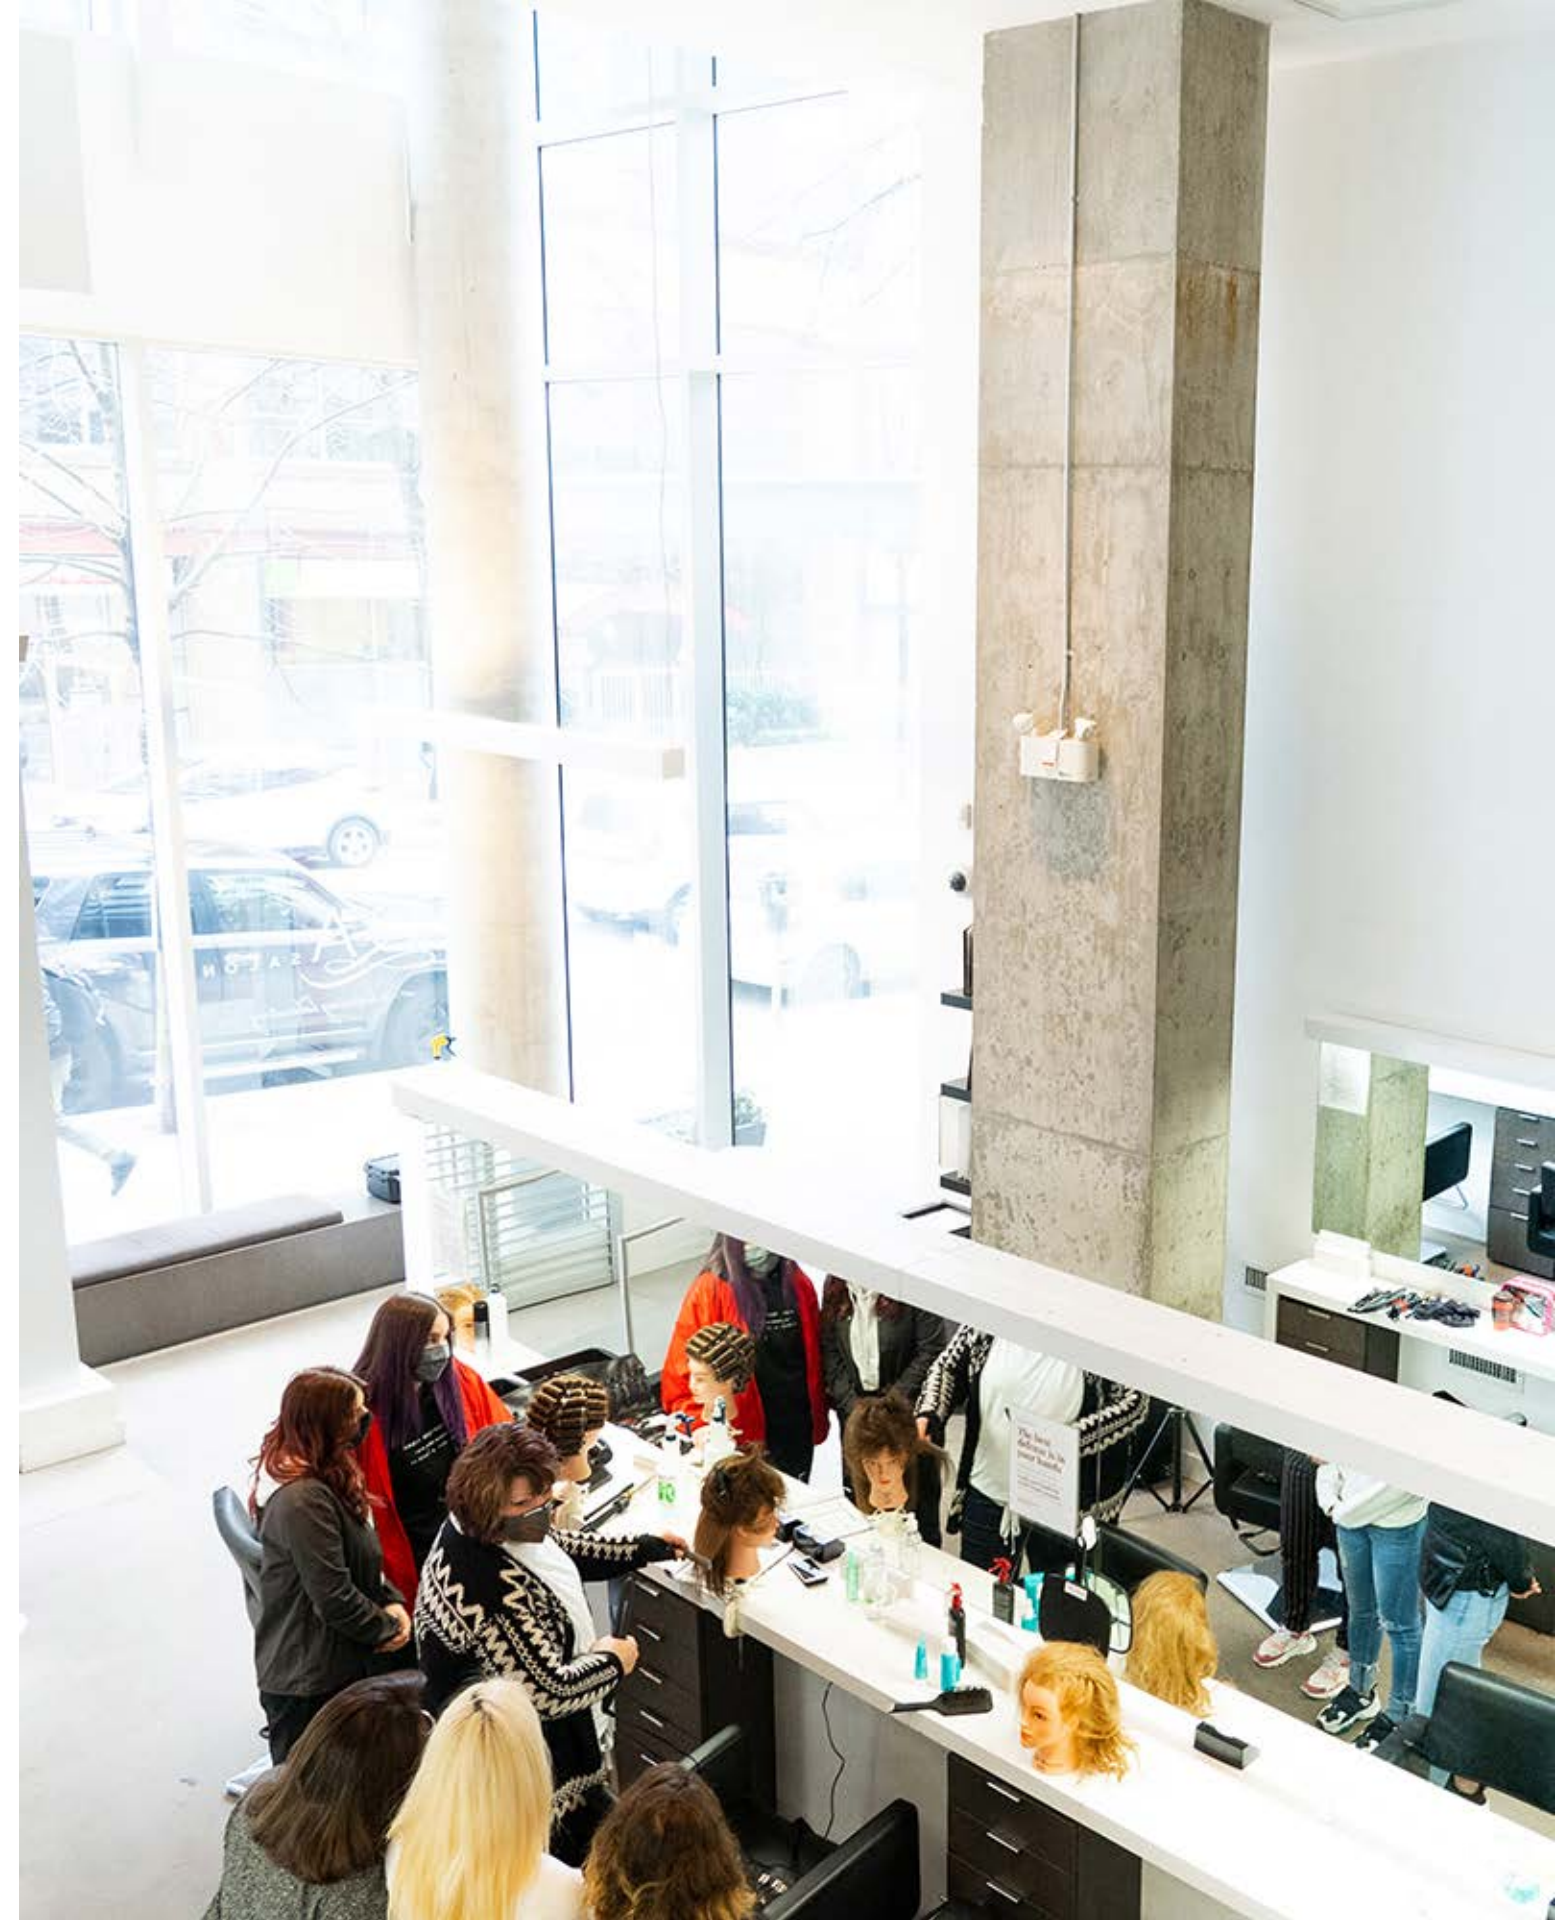

You train on real clients to get the real experience that employers want. When you graduate, you can make a seamless transition from classroom to career.

4 FAMILY AND FRIENDS DAYS

During these pandemic days, it's been hard not being able to see our family and friends as often as we would like. It's been an emotionally challenging time for everyone. Being able to treat your Family and Friends to some free hair services is such a "highlight". This is a wonderful way to reconnect with people, to provide them with some self care, and to share a bit of your new creative and professional journey.

5 CURLIQUE BEAUTY BOUTIQUE

Gain access and hands-on practice with Professional Hair brands and additional Product Training with Hair professionals. Develop the confidence to generate additional income through retail sales. The practice of "selling something" can feel uncomfortable to some people. Learn how to create sales through education and service. We focus 100% of our efforts in training our students to the highest industry standards. 7 INNOVATIVE PIVOT POINT LAB ONLINE LEARNING SUPPORT, INTERACTIVE CURRICULUM

Making learning theory easy.

Hair theory incorporates anatomy, biology and chemistry.

We all learn differently.

With the award-winning Pivot Point LAB learning platform, our Hair students have access to endless videos, diagrams, lesson plans, course content, practice quizzes and exams.

Replacing heavy textbooks and saving trees, our Pivot Point LAB online learning support is extremely popular with our students. The feedback is that they find this method so much more fun, engaging, and easy to use. There are continual educational resources for you to learn from and refer to.

With the huge library of videos breaking down classes for cutting, colour, perming etc., this also allows our students access to hundreds of hours of additional practical training content with two years of access availability.

Pivot Point International delivery system

Students are trained on the Pivot Point Method. This is widely considered to be the Industry standard and the International Language of Hair.

This method is used in 70% of salons worldwide.

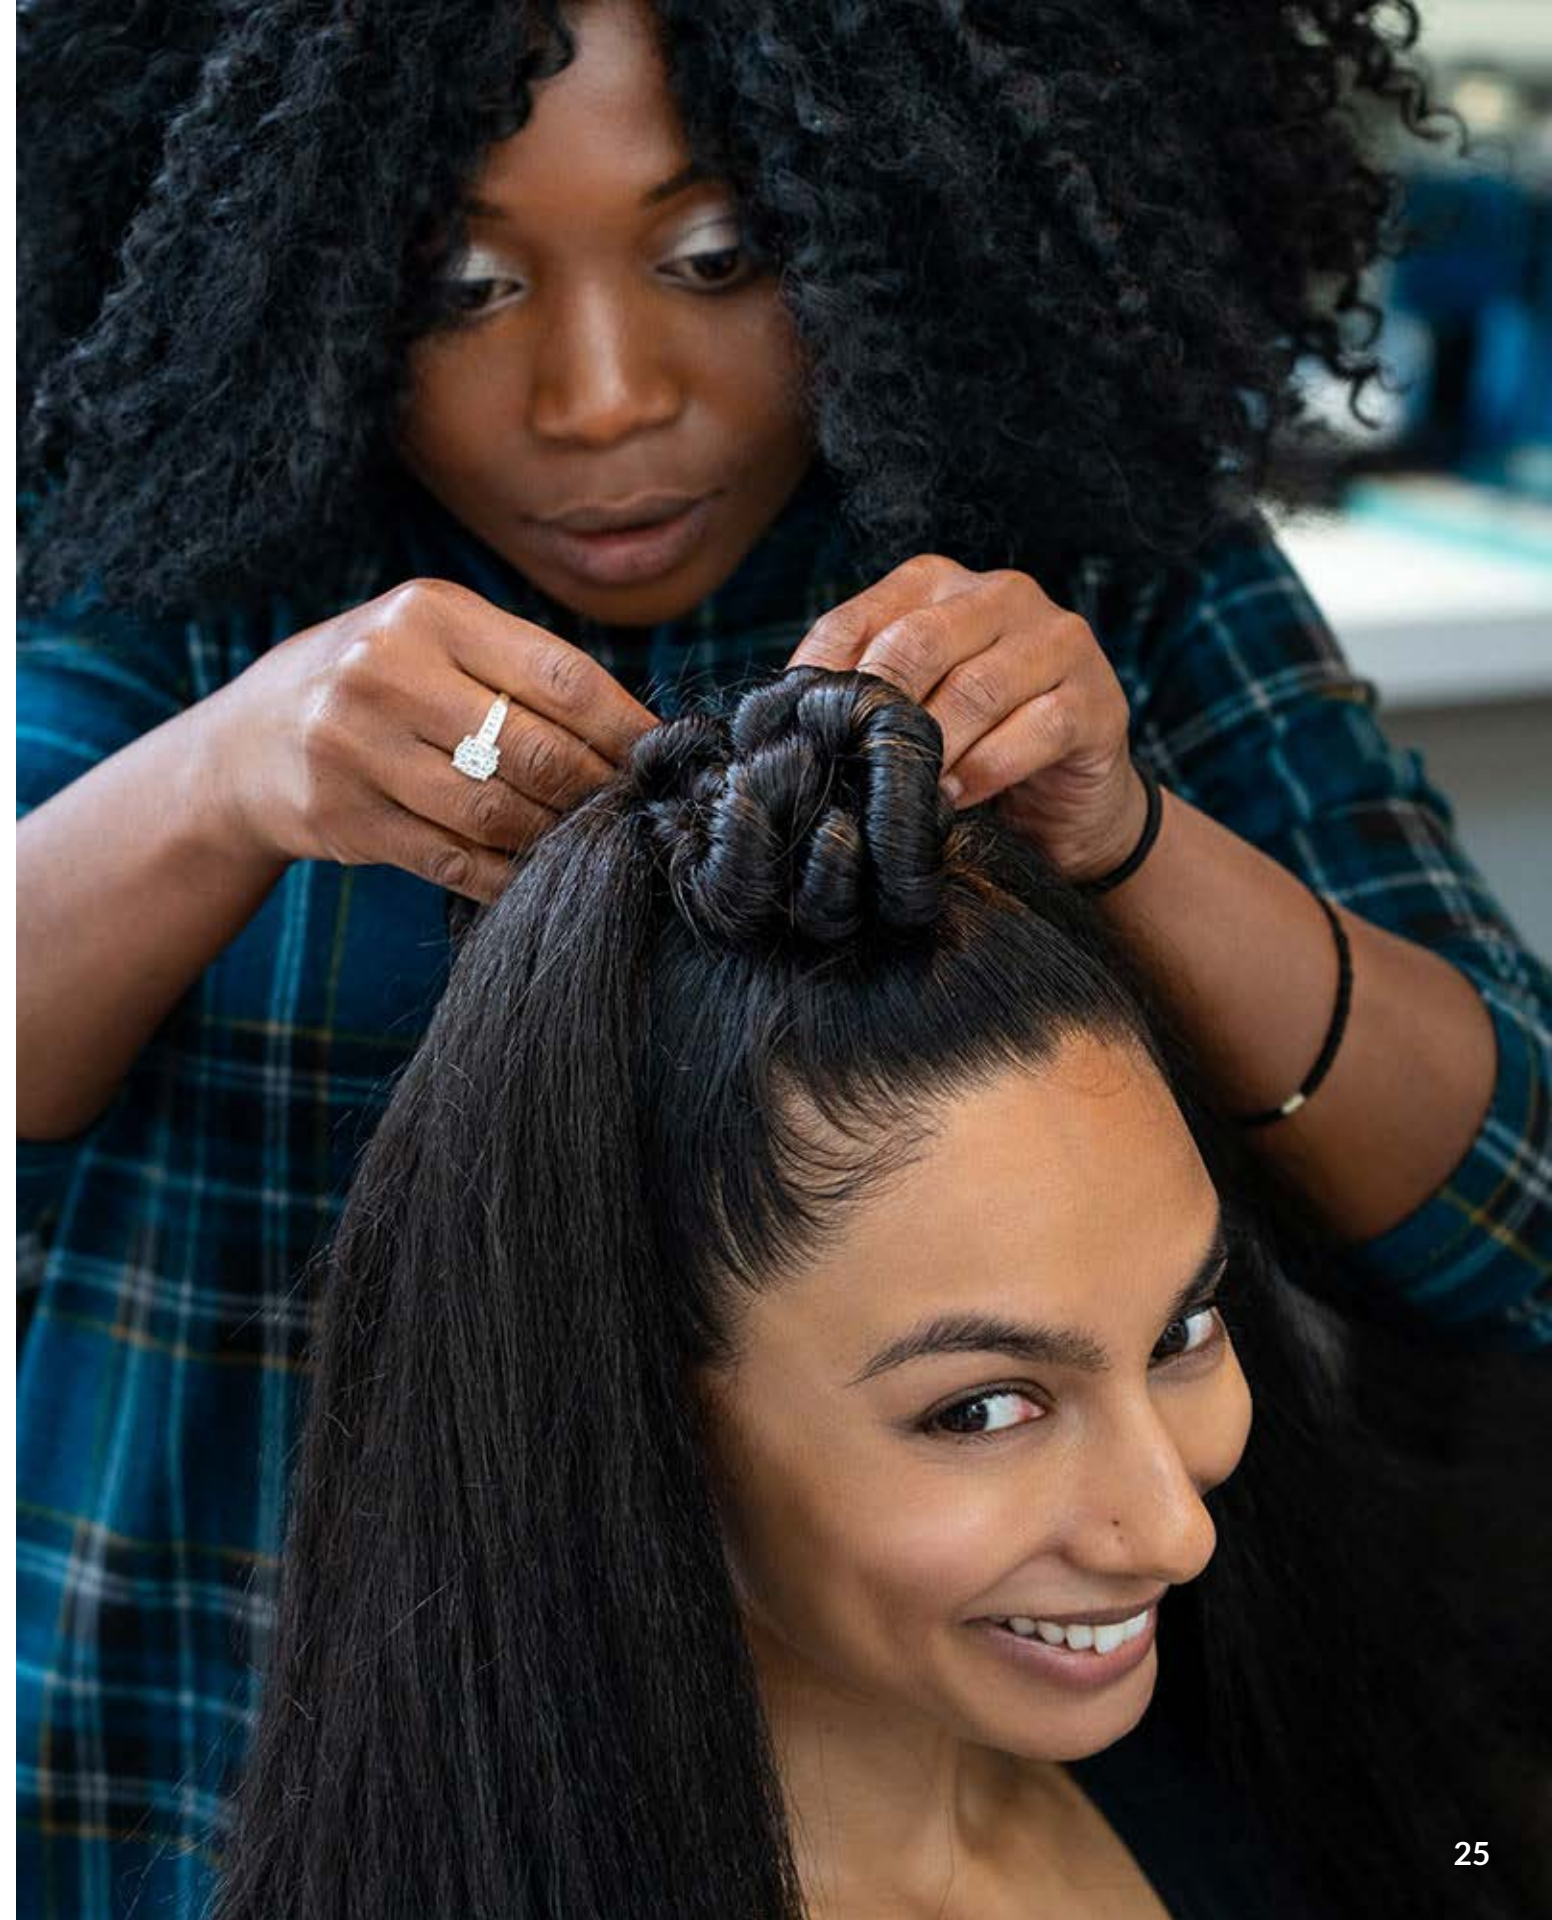

It is a highly-effective system, which is colour-coded and structured. The College has accessed supplementary training materials that allow students to receive educational support in multiple languages including English, French, Spanish, and Chinese.

8 AWARD WINNING INSTRUCTORS WITH PROVEN INDUSTRY EXPERTISE

Putting your skills to the test. Students have the option of participating in some friendly creative competition.

Those who choose to join in are assigned a creative challenge, eg. working with a specific hair colour, incorporating a hair style with multiple hair extensions or executing a platform hair creative.

With an assigned time limit, the student contestants are then given free rein over their technical and creative concepts. Professional top-tier judges are on hand to provide feedback and mentoring throughout the competition.

Previous student winners have received on-site job offers from two of the industry's top talents, Jon Paul Holt of Avant Garde Salon and Richard Jeha, of Richard Jeha Salons.

What *our* grads say...

Camille Petit, Blanche Macdonald Hair Graduate,
Senior Stylist, Plan B, Kelowna BC

I used to tell my mom when I was four years old that when I grew up I wanted to be a hairstylist, which for a little while changed to a dentist! I quickly learned that dentistry wasn't for me, but the hairstylist dream definitely stuck...I loved hair school! I learned SO much. I left Blanche Macdonald feeling super prepared for the big bad hair world."

Amanda Bagri, Blanche Macdonald Hair Graduate,
Salon Owner/Stylist - MOD ON MAIN, Vancouver BC

When I was in high school, I knew I didn't want to go to college or university. I loved the beauty and esthetics industry, so it was like, 'Oh well then that's what I'll go to school for!'

I never expected to love it as much as I did or to be a Hairstylist as my career. I just kind of thought, 'If it works, it works...'

But my teachers were great and I made so many friends fast—it was very cool!"

Travis Battaglia, Blanche Macdonald Hair Graduate,
Master Stylist, Supernova, North Vancouver, BC

The Blanche name alone opens up a lot of opportunities when it comes to getting hired at high-end luxury salons and getting into different industries.

It helped me become an educator for three global companies Wella, Nioxin and Sebastian.”

I loved doing my own hair, so I spoke to a friend who was a stylist about her experiences. I did some research and spoke to people who'd been to hair school. The program at Blanche Macdonald had the most education and the most depth. Everything I read said it was the best school, so why not go with the best?...The first shift after I graduated I was on the floor as a stylist.”

Victoria Jazic, Blanche Macdonald Hair Graduate,
Salon Owner/Stylist - THE HONEY LOUNGE, Vancouver BC

We were never taught to do specific creative styles. Instead, we learned the skills and the ability to look at a style and know how to do it.

We had to be willing to learn and absorb everything. Which I did, because I learned really easily... All the teachers had their different styles and I liked that.”

Dylan Walker, Blanche Macdonald Hair Graduate and Stylist, Harlow Gold Salon

My favourite part of the Pro Hair program was colour class! I've always loved colour – it's fun and creative and a little science-y, which my nerdy side secretly loves!

I love formulating and I also really enjoyed the photo shoots...The best part of owning my own salon is the freedom and flexibility it allows me. I also love the space I've created – it really reflects my style.”
